CURRENT LIST of MEDICAL LITERATURE

Vol.9 October 5, 1945 No.14

SUBJECT GROUPS ACCORDING TO JOURNALS

*1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
*4. Aviation Medicine
*5. Bacteriology; Parasitology
*6. Biology; Embryology
*7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
*10. Chemistry; Physics
*11. Dentistry; Stomatology
*12. Dermatology
13. Diagnosis; Clinical Methods
*14. Dietetics; Foods; Nutrition
*15. Digestive System
16. Endocrinology
*17. Forensic Medicine; Toxicology
*18. Genetics; Eugenics
*19. Gynecology; Obstetrics
20. Hematology
*21. History; Biography; Bibliography
*22. Homeopathy; Osteopathy, etc.
*23. Hospitals
*24. Immunology; Serology
*25. Industrial Hygiene; Sociology
*26. Infectious Diseases; Epidemiology
*27. Medicine
28. Metabolism
*29. Military and Naval Medicine
*30. Miscellaneous
*31. Neurology; Psychiatry
*32. Nursing
*33. Ophthalmology
*34. Otorhinolaryngology; Phoniatry
*35. Pathology
*36. Pediatrics; Child Welfare
*37. Pharmacology; Pharmacy
*38. Physiology
*39. Psychology; Mental Hygiene
*40. Public Health; Sanitation
*41. Radiology; Phototherapy
42. Respiratory System
*43. Surgery; Traumatology
*44. Therapeutics
*45. Tropical Medicine
*46. Tuberculosis
*47. Urology
*48. Venereal Diseases; Sexology
*49. Veterinary Medicine
*50. Zoology

THE ARMY MEDICAL LIBRARY

Washington, D. C.

PERIODICALS

Needed to Complete the Files of the Army Medical Library

Since this Library has been unable to secure the following missing numbers of journals through ordinary channels, they are listed here in the hope that other libraries or individuals may have copies which they will donate or exchange for duplicates of other journals.

Please notify the Acquisition Division of the Army Medical Library, at the address given below, of any numbers which may be available, and franked labels for their transportation will be forwarded promptly.

Oklahoma County Medical Association and Oklahoma City Clinical Society. Bulletin.
- v.1-6, 1930-1935
- v.7 #1-8, 11 to end of vol.
- v.9, 1938 #7
- v.10, 1939 #1, 2
- v.11, 1940
- v.12, 1941 #6
- v.16, 1945 #1

Oklahoma Nurse. Tulsa.
- v.1-17, 1925-1942
- v.18, 1943 #1-3
- v.19, 1944 #1-2

Ontario Medical Review. Toronto.
- v.1-8, 1934-1941

Ophthalmologia ibero-americana. Buenos Aires.
- v.6 #3,4, index.
- v.7, 1944

Optical Index. Indianapolis.
- v.1-14, 1924-1940.
- v.17, 1942

Optical Journal and Review of Optometry. Philadelphia.
- v.59, 1927-v.68,1931
- v.69 #11, 1932
- v.72-75, 1935-1938

Oral Health. Toronto.
- v.1-15, 1911-1925
- v.16, 1926 #2-12
- v.17-22, 1927-1932
- v.24-33, 1934-1943

Osteopathic Magazine.
- v. 8, 1921 #7, 9
- v.10, 1923 #4
- v.11, 1924 #1, 2
- v.13, 1926 #1, 2
- v.14, 1927 #8
- v.15, 1928 #4, 5, 8, 10
- v.16, 1929 #2 through v.27, 1940

Osteopathic Profession. New York.
- v.1-6, 1933-1939
- v.7, 1939/40 #1-3, 5, 12
- v.8, 1940/41 #5
- v.9, #4

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C.: $3.00 per year ($3.75 foreign) 10 cents per single copy.

Published by the Army Medical Library, 7th St. & Independence Ave. S.W., Washington 25, D.C. Exchange invited.

Microfilm copy of items listed herein may be obtained without charge by applying to The Librarian, Army Medical Library. Not more than 15 items may be included in any one request; a second request may be submitted when the first has been returned to the reader. Items should be numbered, in the order in which they are listed in the reader's request, and should be presented as follows: Title of journal, volume number, inclusive pagination of item desired, year, author's name, title of article. Requests must be submitted in duplicate.

1. Anatomy; Histology

Arch.ital.anat.,1944,50: (June 20)

GALGANO,M. Il ciclo sessuale annuale in Triturus cristatus carnifex (Laur.); il ciclo naturale nei due sessi. 1-148,8 pl.

4. Aviation Medicine

Air Surgeon's Bull.,1945,2: (Sept.)

GRANT,D.N.W. Physical standards and waivers. 275-6.
CHAPANIS,A. Night vision; a review of general principles. 279-84.
HINN,C.J., & MONTANO,R.A. A case of night blindness. 287.
GREEN,D.M. Use of plasma in very long range aircraft. 290.
GAGGE,A.P. Human factors in aircraft design. 298-301.
KLEINHOLZ,L.H. Rates of oxygen consumption by bomber personnel. 303.
LOVELACE,W.R., CARLSON,L.D., & WULFF,V.J. Oxygen consumption of aircrews. 304.
BURNS,H.L. Pneumatic balance resuscitator. 306.
MITCHELL,R.B., & van RAVENSWAAY,A.C. Infectious diseases; hemolytic streptococcic diseases and acute rheumatic fever in the AAF. 311-4.

5. Bacteriology; Parasitology

J.Parasit.,1945,31: (Aug.)

JONES,A.W. Studies in cestode cytology. 213-35.
OWEN,W.B. A new anopheline from the Solomon Islands with notes on its biology.236-40.
BELKIN,J.N., KNIGHT,K.L., & ROZEBOOM,L.E. Anopheline mosquitoes of the Solomon Islands and New Hebrides. 241-65.
NEWTON,W.L., & PRATT,I. Experiments to determine whether infective larvae of Wuchereria bancrofti can migrate from the abdomen of the mosquito intermediate host. 266-71.
SEITNER,P.G. Studies on five new species of xiphidiocercariae of the Virgula type. 272-81.
WARTON,G.W. Trombicula frittsi n. sp. (Acarinida; Trombiculidae) 282.
CHANDLER,A.C. Trichuris species from California rodents. 284-6.
MAUSS,E.A. Pinworm infestation among children of rural communities. 288.
BRACKETT,S., & HUGHES,C.O. Chilling as a means of retaining the viability of the sporozoites of Plasmodium gallinaceum. 288.
BELTRAN,E. Conflicting views in regard to Iodamoeba williamsi. 289.

Biol.Rev.Cambridge Philos.Soc.,1945,20: (July)

BULLOUGH,W.S. Endocrinological aspects of bird behaviour. 89-99.
COOK,A.H. Algal pigments and their significance. 115-32.

Biol.Sympos.,Lancaster,1945,11:

HUEPER,W.C. The relation between etiology and morphology in degenerative and sclerosing vascular diseases. 1-42.
PAGE,I.H. Arteriosclerosis and lipid metabolism. 43-73.
KOUNTZ,W.B. Research work on degenerative disease. 74-8.
KOUNTZ,W.B., SONNENBERG,A., et al. Blood cholesterol levels in elderly patients; relation of age, sex, basal metabolic rate, cardiac decompensation, and coronary and peripheral sclerosis to blood cholesterol levels in the aged. 79-86.
HOFSTATTER,L., SONNENBERG,A., & KOUNTZ,W.B. The glucose tolerance in elderly patients. 87-95.
SCHWARTZ,A.S., & COOKE,J.V. Progeria; report of a case. 96-100.
KUNTZ,A. Effects of lesions of the autonomic ganglia, associated with age and disease, on the vascular system. 101-17.
DRAGSTEDT,L.R. The role of the pancreas in arteriosclerosis. 118-32.
STIEGLITZ,E.J. Difficulties in the clinical recognition of degenerative diseases. 133-54.
KERR,W.J. Correlation of clinical knowledge in the treatment of the degenerative diseases. 155-64.
MACNIDER,W.D. Age, change, and the adapted life. 165-76.
SAXTON,J.A.,jr. Nutrition and growth and their influence on longevity in rats. 177-96.
LOEB,L. Cancer and the process of ageing. 197-216.

Biometr.Bull.,1945,1: (Aug.)

WILCOXON,F. Some uses of statistics in plant pathology. 41-5.
BITANCOURT,A.A. A probit scale for slide rules. 46.
UPHOLT,W.M. Observations on wartime biometrics. 47-52.

7. Bone; Joint; Extremities; Muscle

Ann.Rheumat.Dis.,Lond.,1944-45,4: (June)

FRASER,T.N. Gold treatment in rheumatoid arthritis. 71-5.
BOLAND,E.W., HEADLEY,N.E., & HENCH,P.S. The effect of penicillin on rheumatoid arthritis. 76.
MYLECHREEST,W.H. An investigation into the aetiology and pathology of fibrositis of the back. 77-9.
FISHER,A.G.T. Some orthopaedic aspects of rheumatic disease. 80-4.
TUNBRIDGE,R.E., & COPEMAN,W.S.C. Rheumatic fever in Malta; a clinical note. 85.

10. Chemistry; Physics

Analyst, Lond., 1945, 70: (Aug.)

BRAMELD, V. Rapid methods for the determination of phosphine and hydrogen sulphide as impurities in acetylene generated from commercial calcium carbide. 279-83.

BARTON-WRIGHT, E.C. The theory and practice of the microbiological assay of the vitamin-B complex; together with the assay of selected amino acids and potassium. 283-95.

SYLVESTER, N.D., AINSWORTH, A.N., & HUGHES, E.B. The determination of fat in mixtures containing fatty acids, and the determination of unsaponifiable matter in oils and fats. 295-8.

JONES, J.I.M. The colorimetric determination of phosphorus, with special reference to blood phosphorus. 298-301.

INNES, R.F., & BIRCH, H.F. Estimation of vitamin A by the antimony trichloride method using the Spekker photoelectric absorptiometer. 304.

ADAMSON, D.C.M., & HANDISYDE, F.P. The colorimetric estimation of morphine. 305.

Biochem.J., Lond., 1945, 39: (No.1)

PENNEY, J. R., & ZILVA, S. S. The isolation of barium and calcium diketo-l-gulonates and the biological significance of 2:3-diketo-l-gulonic acid. 1-4.

DEVINE, J., HUNTER, R. F., & WILLIAMS, N.E. The preparation of β-carotene of a high degree of purity. 5.

CUTHBERTSON, W. R., & PHILLIPS, H. The action of alkalis on wool; the subdivision of the combined cystine into two fractions differing in their rate and mode of reaction with alkalis. 7-17.

LINDLEY, H., & PHILLIPS, H. The action of alkalis on wool; the identity of the lanthionine-forming and bisulphite-reactive fractions of the combined cystine of wool. 17-23.

COULTHARD, C. E., MICHAELIS, R. /et.al./ Notatin: an anti-bacterial glucose-aerodehydrogenase from Penicillium notatum Westling and Penicillium resticulosum sp.nov. 24-36.

EPPS, H. M. R. The development of amine oxidase activity by human tissues after birth. 37-42.

EPPS, H. M. R. Studies on bacterial amino-acid decarboxylases; l(-)-histidine decarboxylase from Cl. welchii type A. 42-6.

GALE, E. F. Studies on bacterial amino-acid decarboxylases; the use of specific decarboxylase preparations in the estimation of amino-acids and in protein analysis. 46-52.

TAYLOR, E. S., & GALE, E. F. Studies on bacterial amino-acid decarboxylases; codecarboxylase content and action of inhibitors. 52-8.

ANDERSON, A. B. The lead content of urinary and biliary calculi and gall-bladder bile. 58-60.

BELL, G. H., CHAMBERS, J. W., & WADDELL, M. B. R. The routine estimation of haemoglobin as oxyhaemoglobin. 60-3.

DZIALOSZYNSKI, L. M., MYSTKOWSKI, E. M., & STEWART, C. P. The mode of occurrence of carotene and vitamin A in human blood plasma. 63-9.

BIRKINSHAW, J. H., BRACKEN, A., & RAISTRICK, H. Studies in the biochemistry of micro-organisms; metabolic products of Aspergillus fumigatus Fresenius. 70-2.

LOCKETT, M. F. The quantitative estimation in urine of a base closely allied to l-nicotine, and the absence of alteration in output when the diet is changed. 72-5.

BLASCHKO, H. Observations on cysteic acid decarboxylase. 76-8.

KODICEK, E., & WORDEN, A. N. The effect of unsaturated fatty acids on Lactobacillus helveticus and other gram-positive micro-organisms. 78-85.

MADINAVEITIA, J., MARTIN, A. R. /et al./ Antibacterial substances related to pantothenic acid. 85-91.

MARTIN, A. R., & ROSE, F. L. Antibacterial activity of substances related to p-aminobenzoic acid. 91-5.

MALPRESS, F. H. The colorimetric estimation of diethylstilboestrol, hexoestrol and dienoestrol. 95-8.

FULLER, A. T. The estimation of aromatic amidines. 99-102.

HOCKENHULL, D. J. D., & HERBERT, D. The amylase and maltase of Clostridium acetobutylicum. 102-6.

SHEN, T., HSIEH, K. M., & CHEN, T. M. Effects of magnesium chloride and manganous nitrate upon the content of ascorbic acid in soybean during germination, with observations on the activity of ascorbic acid oxidase. 107-10.

KING, E. J., & DELORY, G. E. Formation of haematins and haemochromogens. 111-3.

CROSS, M. C. A. The relationship between the weight of young vitamin A-deficient rats and the increase in weight after β-carotene administration. 113-5.

DODDS, E. C. Synthetic oestrogens in cancer. i.

HADDOW, A., HARRIS, R. J. C., & KON, G.A.R. Inhibition of growth by amino-s-diarylethylenes. ii.

BONSER, G. M. The evolution of mouse mammary cancer; the roles of milk factor and oestrogen. iii.

HERBERT, F. K. The differentiation between prostatic phosphatase and other acid phosphatases in pathological human sera. iv.

KING, E. J., & DELORY, G. E. Plasma phosphatase in the diagnosis of malignancy. iv.

RICHES, E. W. The clinical use of synthetic oestrogens in carcinoma of the prostate. v.

GYE, W. E., MCINTOSH, J. /et al./ Viruses in relation to cancer with special reference to the milk factor. vi-x.

BARTON-WRIGHT, E. The microbiological assay of pyridoxine. x.

MACLAGAN, N. F. The thymol turbidity test of liver dysfunction. xi.

WHIDBORNE, J., & GRAY, C. H. Photoelectric determination of serum bilirubin. xi.

GRAY, C. H., & WHIDBORNE, J. Photoelectric studies of the direct Van den Bergh reaction. xii.

KING, E. J., & WOOTTON, I. D. P. An iodimetric method for plasma bicarbonate. xiii.

OXFORD, A. E. Production of the antibacterial protein diplococcin in a medium containing no protein or polypeptide. xiii.

WARREN, F. L., ELSON, L. A., & GOULDEN, F. On the absence of a connexion between the growth retardation produced by polycyclic aromatic hydrocarbons and sulphur metabolism. xiv.

BARBER, M., & HASLEWOOD, G. A. D. Antibacterial activity of 2-aminophenols. xiv.

LAMPITT, L. H., & CLAYSON, D. H. F. The nature of ascorbic oxidase; a critique of the copper-protein theory. xv.

LAMPITT, L. H., CLAYSON, D. H. F., & BARNES, E. M. The nature of ascorbic acid oxidase; the reactions between ionized copper, potassium phosphate and calcium phosphate. xvi.

BOOTH, R. G., & HUTCHINSON, J. B. A rapid

colorimetric method for cereal proteinase. xvi.
LLOYD, B. B., SINCLAIR, H. M., & WEBSTER, G. R. The estimation of ascorbic acid for clinical purposes by the hydrazine method. xvii.
PLATZER, R. H. A., & LOWY, L. Comparison of methods of estimating blood proteins. xviii.

11. Dentistry; Stomatology

Brit.Dent.J.,1945,79: (Aug. 17)

HOLLAND,N. Gross pathology of fractures of the mandible caused by high velocity missiles; a review of 400 cases. 91-8.
WRIGHT,A.C. Penicillin; treatment of acute ulcerative gingivo-stomatitis in private practice. 100.
HUTTON,J.L. Experience of a dental officer in Normandy. 103-6.

12. Dermatology

Ann.derm.syph.,Par.,1944,4: (Sept.-Oct.)

GOUGEROT, H. Avitaminose C cutanee; dermatite exfoliatrice seche evoluant suivant la vitaminotherapie C. 233-7.
JOUIN, P., & LE COULANT, P. Un cas d'atrophie maculeuse a tendance extensive; anetodermie urticarienne type Pellizari. 238-48.
CAILLIAU, F. Tuneurs cutanees et systeme nerveux. 249-53.
FRANCOIS, A. La dermatomyosite. 254-60.

Ann.derm.syph.,Par.,1944,4: (Nov.-Dec.)

GOUGEROT, H. Evolution vers le lichen plan d'une lesion complexe oscillant entre le lupus erythemateux, le lichen plan et la poikilodermie. 293.
GOUGEROT, H., CARTEAUD, A., & DUPERRAT, B. Aspect clinique de maladie de Hiehl, lichen plan typique histologiquement. 294.
GOUGEROT, H., GRACIANSKI, de & DUPERRAT, B. Rash pre-zonateux. 295.
GOUGEROT, H., DUPERRAT, B., & GAULIER. Granulome annulaire palmaire. 295.
GOUGEROT, H., & DUPERRAT, B. Maladie de Schaumann et maladie de Hansen. 295.
DEGOS, R. Parapsoriasis en plaques, ayant resiste au traitement aurique, efface par une cure d'arsenobenzol. 296.
JAUSION, CAILLIAU & CARLIER. Constructions osseuses provisoires, au cours d'une gingivite bismutho-mercurielle. 296.
KARATCHENTZEFF. Reflexes achilleens inverses. 297.
TOURAINE, A., & HUEL, H. Epithelioma plan cicatriciel pigmente. 297.
TOURAINE, A., & GOSSET. Epithelioma sur maladie de Bowen; recidive post-radiotherapique. 298.
TOURAINE, A. Paralysie generale et nevropathies familiales. 298.
TOURAINE, A. Ichtyose et psychisme. 298.
LEVY-FRANCKEL. Action du serum antidiphterique en injections intradermiques dans

certaines dermatoses squameuses, en particulier le pityriasis rose de Gibert. 299.
GRACIANSKY, P. de. Recherches biochimiques sur la melanose de Riehl. 300.
PERIN, L. Resultats tardifs du traitement de la syphilis. 300.
GOUGEROT, H., BURNIER /et al./ Les neoplasies mesodermiques difficiles a classer reticulo-sarcomatose. 303.
GOUGEROT, H., CARTEAUD, A., & DUPERRAT, B. Les erythemes squameux indeterminés. 304.
GARNIER, G. Kraurosis penis spontane. 304.
GARNIER, G. Eruption post-aurique a type de lupus erythemateux. 305.
KARATCHENTZEFF. Hemispasme facial, datant de deux ans, considere comme primitif, rapidement gueri par le traitement antisyphilitique. 305.
GOUIN. Resistance (accidents nerveux) au cours du second traitement pratique par le sel de bismuth utilise dans le premier traitement mixte (914 bismuth) 306.
